- Second meeting at RIPE 62

- Third meeting early June 2011.

RIPE

Basic requirements of (a) proposal(s)

- To have a single point of contact that
  - may be hierarchical,
  - can be simply queried to return a single piece of information
  - is easily configured and referenced by others
- To separate storage in the DB from querying the DB and presentation of the information

RIPE

Feedback/Input

- Exploring a number of options.

- Feedback and/or input is still welcomed
